About Us

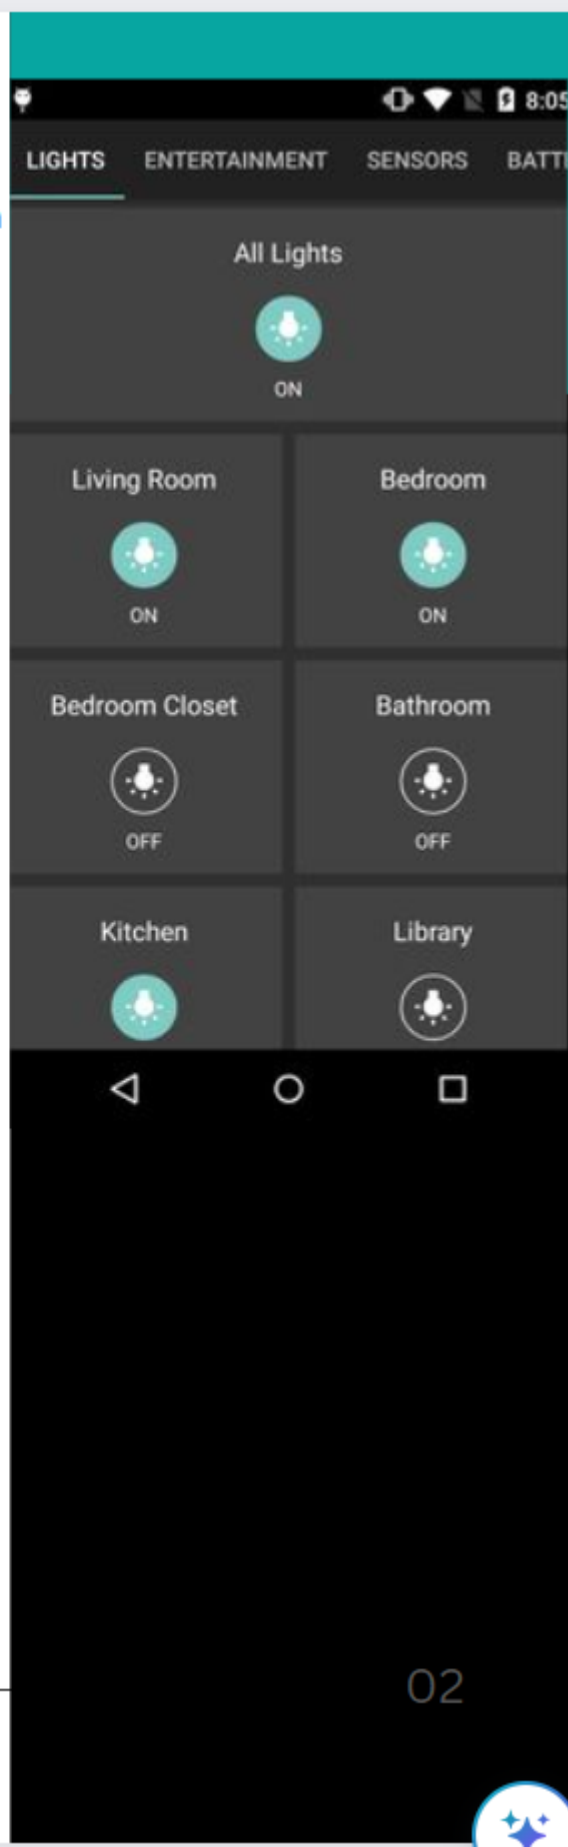

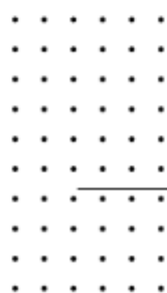

Tommie's is a smart homes and home automation company. It was founded in January, 2021 by Tom Kimai. It is located in Nairobi CBD, Biashara Plaza, third floor. Tommie's is dedicated to preparation of houses and installation of smart devices, home security system and audio set ups including dedicated home cinema. The aim of the company is to ease accessibility to smart home devices and systems.

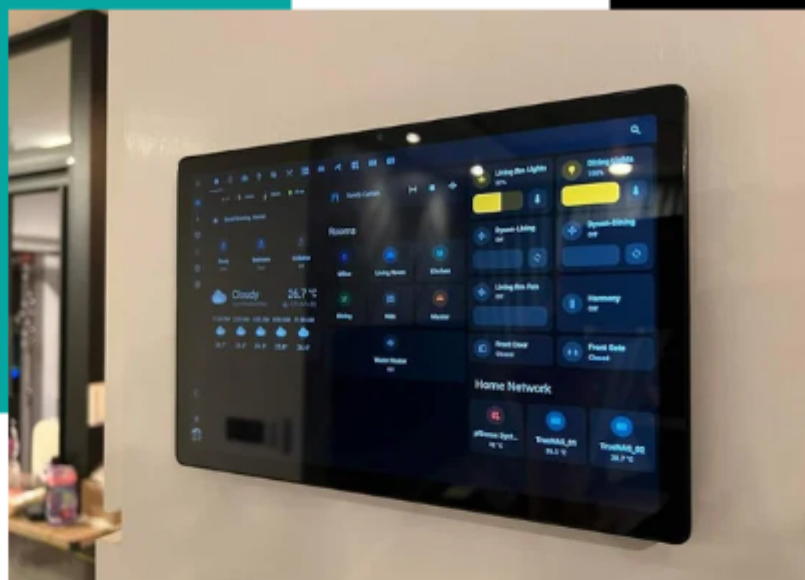

Mission

Our Mission is to expand smart home adoption and enable access to solutions of home automation by easing access, competitive pricing and availing variety.

Vision

Wide use of our smart technologies to solve security, convenience, safety and luxury needs.

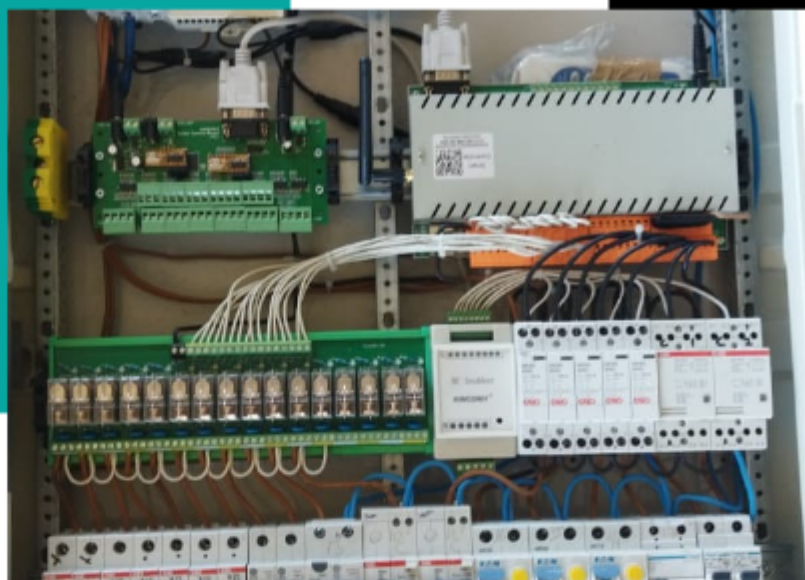

WHAT WE DO

- ✓ **Smart Consumer Unit** - our unique smart home product. We make a normal consumer unit smart hence enable automation of virtually any process and device in a building
- ✓ **Home Security** - Including smart home security system, and smart door locks
- ✓ **Smart Lighting** - Smart switches, smart lights, scenes, ambient lighting
- ✓ **Home Audio distribution/Home cinema**
- ✓ **Smart Home Dashboard**- control4, Home assistant, Tuya, etc.
- ✓ Smart curtains, CCTV, vacuum robots, smart intercom

HOW WE DO IT

- ☑ Consultancy over the various automations, devices and providers to determine clients needs to satisfy their objective for automation.
- ☑ Prepare a home for smart home systems, audio/video distribution, security needs, intercom, surveillance and any other need.
- ☑ Installation, maintenance, and training on the use of smart home systems installed.
- ☑ Making changes, support, customization, improvement and integration with other systems.

Smart Home Benefits

Control

The best gain from a smart home is putting you in control of your home, right from your phone you will know which door is unlocked, light is on etc. from anywhere and still be able to lock the door or switch off the light.

Convenience & Efficiency

You will not need to come home to open the door for a relative, just do it from miles away. Smart home makes it possible to do things remotely. They are great at power and time saving.

Safety and Security

Smart home systems are focused at eliminating small accidents at home. They are security measures like

- biometric unlock for smart
- doors or contact sensors for
- doors.

Comfort

The best audio distribution, even to outdoor spaces and the luxury of enjoying audiovisual content in Dolby Atmos. Keyless home access and automations that complement luxury lifestyle.

OUR VALUES

SAFETY

We believe **SAFETY** must be at the forefront of all our decision-making

TEAMWORK

We believe **TEAMWORK** empowers our individual strengths

RESPECT

We believe **RESPECT** to each other will guide us in all our decisions

OUR VALUES

HONESTY

We believe **HONESTY** is an integral part of our working relationships

INTEGRITY

We believe **INTEGRITY** is at the heart of our individual and corporate actions
